

# A Special Report That Busts Open One of the Biggest Cover-ups in U.S. Medicine

“I’ll Never Trust the Money-Hungry Mainstream  
Medical Establishment’s Malarkey Again!”

A special message from Dr. Michael Kessler, DC,  
Expert in German Biological Medicine

Dr. Michael  
Kessler, Expert  
in Biological  
Medicine

A few years ago, a little boy, 4 years old, was in my care for a debilitating disease called dermatomyositis. He had incredible muscle pain, fatigue and skin lesions all over his body.

His doctor—following regular medical protocol—put him on prednisone. The side effects this little boy was experiencing were terrible!

I was able to successfully treat him using a unique form of medicine that most doctors don’t know about.

Within a couple weeks he went from having a hard time walking to running and swimming. Within a month and a half, he was off prednisone completely. The physicians working with him were amazed at his recovery.

Yet despite numerous “miraculous” cures like this, the establishment has worked hard to keep this medicine hidden from you. *That’s why I urge you to keep reading...*

(continued)

## INSIDE:

- ▶ 6 studies the **Mainstream Medical Establishment** hoped you’d never see. *page 3*
- ▶ The reason why the AMA was formed... and what that meant for the **future of medicine** in the U.S. *page 2*
- ▶ The true story of an amazing recovery from **Alzheimer’s** that took one *1/16-inch pill only.* *page 3*
- ▶ Miraculous stories about cures for **Crohn’s disease, autism, arthritis, high blood pressure, tuberculosis** and more. *page 5*
- ▶ A special form of medicine used by **Tina Turner, The Queen of England, Dr. Phil, Boris Becker, and David Beckham** (just to name a few)... but is not even mentioned in U.S. medical schools. *page 5*
- ▶ Breakthroughs in quantum physics and medical research that **end side effects** and medicine as we know it. *page 6*
- ▶ **Cancer** treatments and cures for **HIV** that cost less than \$8 a bottle. *page 9*
- ▶ Your best source of protection for today’s unforeseen **threats.** *page 10*

# Who Hasn't at One Time or Other Felt Cheated and Abused by the Current Medical System?

**I**t's expensive, it's dangerous, and most of the time it doesn't even work. But the worst part of all these deaths and misery is they are unnecessary.

Because, for over one hundred years, the mainstream medical establishment has been trying to hide from the American public a form of medicine that could solve most of your health problems *gently, inexpensively and quickly.*

In fact, *the mainstream medical establishment was created explicitly to squash this competition.* And it's used all kinds of underhanded means to do so (you can see the full story on page 7).

As someone who's interested in natural health, you probably share my frustration with the medical system's shortcomings. It's why I decided to send you this special report.

*But now you're going to be even more incensed.* Because, by the time you're done reading this special report, you'll know that...

**...the real cures, the real answers for the health problems that plague us, have been right under our noses the whole time. But we haven't been able to get to them.**

And even though this unique form of medicine:

- ▶ **Has been around for 2 centuries;**
- ▶ **Is based on careful scientific study and backed by evidence;**
- ▶ **Is respected by famous medical experts** like former U.S. surgeon general, C Everett Koop, MD; “the father of immunology,” Emil Adolph von Behring, MD; and “the father of modern medicine,” Sir William Osler; and
- ▶ **Is used in 39 European countries alongside conventional medicine and is the main form of medicine for over 100 million people in India** (in Europe alone there are over 26 hospitals that provide this kind of medicine along with conventional medicine; and 20%-40% conventional European MDs surveyed said that they recommend these treatments at one point or another).

## **Thanks to the Mainstream Medical Establishment, It's Nearly Impossible to Get Access to It Here**

In fact, if you ask your doctor about this medicine, he probably won't know what you're talking about.

Or, if he's heard of it, he more than likely will tell you it's a bunch of magic potions and snake oil. Not real medicine.

By the time you're done with this report, however, you'll be able to explain to your doctor that he's dead wrong.

Because you'll be among the few here in the U.S. to know the truth.

*But don't be surprised if your doctor still won't*

listen to reason.

Because this shocking story gets worse. For, as you'll find out in this report...

### ...the Mainstream Medical Establishment's Ongoing Campaign to Squelch This "Alternative" Form of Medicine Has Nothing to Do with Protecting Your Health and Safety

*No, it has everything to do with the threats to the dominance that this system poses.*

Because this special form of medicine made off-limits:

- Costs far less;
- Requires doctors spend more time with patients, listening to them closely;
- Treats each person as a whole, unique individual—not a disease to be pigeonholed and dissected; and
- Uses treatments that are gentle and subtle, yet profound, comprehensive and effective. In many cases, one single pill is enough to bring about a deep form of healing that lasts for months if not years before further treatment is needed.

And, as a result, it has an outstanding track record of beyond-satisfying results. Results that many people call miraculous.

This form of medicine regularly succeeds in healing people where conventional medicine has failed abysmally.

Consider Mary Weisner's story about her father's recovery from Alzheimer's...

### Former Alzheimer's Patient Returns to Good Health: Wires a Home Generator, Reads *Time* Magazine and Jokes with Family

Conventional medicine has no answers for Alzheimer's. In fact, most doctors don't even bother testing for it—a painful spinal tap—since there's little they can do to stop the progression of

## Dangerous, Expensive and Ineffective— They Call This Medicine?

### Dangerous!

A report published in 2000 in the *Journal of the American Medical Association (JAMA)* showed that conventional medicine was the cause of at least 225,000 deaths each year.<sup>1</sup>

In 1998, another study in *JAMA* reported that prescription drugs alone are the fourth leading cause of death in this country.<sup>2</sup>

### Ineffective!

A 1978 report from the Congressional Office of Technical Assessment concluded that only 10%-20% of conventional medicine has any proof behind it.<sup>3</sup>

### Expensive!

You don't need to be told how much health care and prescription drugs costs! *What's shocking is that they expect us to pay so much for side effects and risky interventions!* But there are cheaper and more effective alternative remedies that cost literally pennies. Keep reading to find out more.

the disease if you have it.

A family has to watch with despair as their loved one regresses to a second infancy and eventually dies.

If you're struggling to fend this off firsthand, you suffer embarrassment, laced with fear about what the future holds. It's a terrible thing to have your mind slip away from you memory by memory.

**However, this doesn't have to be the death sentence it's made out to be.** Listen to this story of recovery from Alzheimer's.

In an interview, Mary Weisner described her  
*(continued)*

1. Starfield, B. Is U.S. Health Really The Best In The World? *JAMA*, July 26, 2000 – vol. 284, no. 4

2. Lazarou, J et al. Incidence of Adverse Drug Reactions in Hospitalized Patients. *JAMA* 1998. 279 (15): 1200-1205.

3. "Assessing the Efficacy and Safety of Medical Technologies," Congressional Office of Technology Assessment, Washington, D.C. (1978:7)

shock when she visited her parents and found her formerly witty and capable dad curled in the fetal position for most of the day. Paranoid and resentful, he barely recognized family members. She couldn't believe how fast the disease had progressed.

Knowing that there was no help for him in conventional medicine, she sought out the advice of one of the few doctors in this country who practice this "alternative" medicine.

On the doctor's advice, she gave her father one single tiny 1/16 of an inch tablet, which he dissolved under his tongue.

What happened next took Mary, her mother and her father's doctor by surprise.

Four days later, her father was making sarcastic jokes and had installed an air conditioner, no problem.

On the following Wednesday, he installed a generator to the house when the power went out.

When he went for his next checkup with his usual doctor, a conventional MD, the doctor was amazed. See, the last time he had seen her father, Mary's dad couldn't remember his name or who was president.

When the doctor entered the examining room, he found his former Alzheimer's patient busy reading Time magazine and commenting on minivan recalls.

As Mary summed it up, "the doctor is anxious to know more. The treatment was easy. It was noninvasive. There were not elaborate regimes to follow. *There was only a few hours of our time and one little tablet taken one time.*"

And according to Mary, the entire treatment, including consultation and long-distance phone call charges to the special doctor who helped came to less than \$100.<sup>4</sup>

## A Track Record That Makes "Modern" Medicine Look Downright Primitive

There are millions of stories like these of how

this medicine has helped. And often enough, where conventional medicine couldn't do a thing.

In fact, from the common cold to allergies to arthritis, this special medicine's track record far outpaces conventional medicine's.

Here's what I mean:

In 1991, the *British Medical Journal* published convincing research conducted by 3 professors of medicine. They analyzed 25 years of clinical studies looking at this special medicine. They covered 107 controlled trials.

▶ **81 trials (76%) showed this form of medicine was effective**, and only 24 (22%) showed it was somewhat effective or ineffective; 2 trials were inconclusive.

The professors who conducted this research remarked, "The amount of positive results came as a surprise to us."

According to a study published in *The Lancet*, when researchers looked at how well this special medicine worked based on a compilation of 89 double-blind, placebo-controlled studies, they found that, on average:

▶ **These remedies worked almost 2½ times better than the placebo.**

Many studies on commonly prescribed drugs don't even come close to this difference from the placebo.

Double-blind, placebo-controlled trials have demonstrated that this special medicine helps with rheumatoid arthritis, sepsis, HIV, allergies, the flu, migraines, drug addiction, earaches, and more.

And it does this without side effects. In fact, it's so safe even infants and pregnant women can use these remedies.

## Compare This to Conventional Medicine's Track Record:

A report published in the same publication, *The Lancet*, a year later showed:

● **Out of 127 trials of conventional medicine,**  
*(continued on page 7)*

<sup>4</sup>Lansky, A. Impossible Cure. RL Ranch Press, Portola Valley, CA, 2003

# Other “Impossible” Cures

## \* Autism Cured

“My younger son Max was cured of an ‘incurable’ condition—autism. Today, years later, I sometimes have a hard time believing it myself... Within a week, his therapist, my husband, and I were witnessing noticeable changes in him.”<sup>5</sup>

“If you met Max today (at age 19), you would never suspect he had been autistic. He is a college student at a top university who gets all A’s and B’s, belongs to a fraternity, and is outgoing, friendly, and popular socially. He no longer has any food sensitivities.”<sup>6</sup>

—Amy L.

According to the National Institutes of Health’s National Institute of Neurological Disorders And Stroke, “There is no cure for Autism Spectrum Disorders”<sup>7</sup>

## \* Crohn’s Disease Cured

According to the National Library of Medicine’s web site, “There is no cure for Crohn’s disease.”<sup>8</sup>

“Got a call from a gastroenterologist one day after a successfully-treated patient saw him in follow-up for

Crohn’s disease; she’d responded beautifully and had been asymptomatic for six months. He asked if I was taking new patients. I said sure, and asked if he had a referral for me. He said ‘Well, I’ve got Crohn’s,’”<sup>9</sup>

—Will T., MD

## \* Migraines Cured

“I can hardly believe where I was a year ago and where I am today. After suffering so many years from the severe mood swings and debilitating migraines, I had nearly given up hope. I came to you as a last resort—I honestly don’t think I expected anything near the dramatic results I experienced. I feel really free for the first time, and I don’t know how I lasted as long as I did. I guess we can get used to the worst if it creeps up slowly enough. I tell my story to anyone who indicates the slightest interest!”<sup>10</sup>

—Alicia

## \* Blood Pressure Cured

“I had been on prescription blood pressure medicine for 18 years. Every few years my regular doctor would increase my dosage. After 5 weeks of taking a protocol of herbs,

supplements, homeopathic medicine and dietary advice, my blood

pressure was normal. I have not taken my regular blood pressure medicine for over 10 months now, and my blood pressure has remained normal.”

—Ken K.

## Who Else Has Benefited From This Medicine?

- The British Royal Family (It’s their primary form of care)
- 11 U.S. presidents (Lincoln, Tyler, Hayes, Garfield, Arthur, Harrison, McKinley, Coolidge, Harding, Hoover, Clinton)
- 2 British prime ministers (Disraeli, Tony Blair)
- Celebrities John Wayne, Dr. Phil, Jennifer Aniston, Jane Seymour, and more
- Sports figures David Beckham, Boris Becker, Martina Navratilova, and more
- World-class musicians Ludwig van Beethoven, Paul McCartney, Dizzy Gillespie, and more.<sup>11</sup>

The testimonials on this page are from various third party sources to illustrate the benefits of homeopathy in general. These are not subscribers of Homeopathic Healing Miracles, nor customers of Doctors Health Press or Lombardi Publishing Corp. Stock photographs have been used to protect the privacy of the writer.

**between 30% and 50% had exaggerated results and many had no effect at all.**

And beyond these expensive duds, what about the ones that are downright harmful?

Another report from the *Journal of the American Medical Association* in 2002 predicted that:

- **Nearly 20% of new prescription drugs will be recalled or shown to produce unacceptable harmful side effects.**

Now, simply having access to health care that works and doesn't do harm, would be good enough when you look at these figures.

Yet this gets even better. The chart on page 9 shows how this banned form of medicine costs mere pennies in comparison to conventional medicine.

### **A Medicine Way Before It's Time**

So what is this ground breaking medicine that's barely whispered about in American medical circles? This practice that the establishment once pulled together all its forces to shut down because it posed such a threat?

It's called homeopathy.

You may have heard about it already. You may have heard it listed with other natural healing approaches.

You may have even heard about it from those who attack it virulently. *It's got many enemies bent on taking it down for good.*

But while skepticism is an essential part of developing responsible and effective approaches to health, many of the attacks launched at homeopathy are completely unfounded, refuted by careful science, case studies and people whose lives have been changed by it.

**Most attacks on this gentle and effective form of healing are based on the threat it poses to conventional medicine.**

You can see the article that describes how the establishment once tried to shut this down on p. 7.

“Several Harvard-affiliated physicians have told me in private conversation that homeopathy has helped their family members or friends, but they would not want to say so publicly due to fear of ridicule.”

—David Anick, PhD, MD  
Research Associate, McLean Hospital  
Harvard Medical School

See, unlike conventional medicine, homeopathic treatments work with your body's own abilities to heal.

As millions of people have discovered, the body doesn't need to be bludgeoned with chemicals and ripped up with surgery to get better.

**\* In most situations—even extreme cases—all your body needs is a precise tap—a nudge—a little, very carefully calibrated push in the right direction to do all the work of healing on its own.**

To do this, homeopathic physicians use an extremely diluted remedy that has been shown to push the body in exactly the direction needed.

### **Pushing Sugar Pills? Or Pushing the Frontiers of Science—You Decide...**

Because these remedies are so light in contrast to pharmaceutical drugs' heavy chemicals, critics yell, “Homeopathy's nothing more than a bunch of sugar pills!”

*And they're right.* If you took a homeopathic pill and analyzed it chemically, you probably wouldn't find anything more than sugar and water in it.

But that's why I say it's a medicine way before its time.

See, the founder Samuel Hahnemann took his physician's oath to “do no harm” seriously. He wanted to make sure that he didn't put anymore medicine into his patient's body than necessary.

A far cry from the toxic brews prescribed

*(continued on page 8)*

# How Two “Mussolinis of Medicine” Wiped Out Homeopathy in the U.S.

Founded in 1844, the American Institute of Homeopathy was the first medical association in the U.S.

By the turn of the century, 20%-25% of American physicians practiced homeopathy. There were 22 homeopathic medical schools and 100 homeopathic hospitals.<sup>12</sup>

With a cure rate of 2-8 times greater for life-threatening illnesses and gentle, non-toxic treatments, the popularity of homeopathy grew.

Threatened by this rising interest in the “gentler medicine,” non-homeopathic physicians formed a guild, the American Medical Association (AMA).

In 1856, the AMA established a Code of Ethics that banned any discussion of homeopathy among its members, in accredited schools or in its journals. Even if you spoke with a homeopathic physician or married one, you lost your license.<sup>13</sup>

However, none of this worked to discredit homeopathy. By 1870, homeopathy was the dominant form of medicine in this

country.<sup>14</sup>

But in 1899, AMA chair George Simmons took the reins and changed the face of medicine. He struck a deal with pharmaceutical companies to give seals of approval in exchange for advertising in medical journals.

Simmons pumped up the advertising for his organization. And with his promise of an easier way to make money as a doctor (less time with patients and more profitable cures), the AMA ranks swelled from 8,000 in 1900 to 70,000 in 1910.

Simmons, along with PR expert Morris Fishbein, used the growing ranks of AMA members and pharmaceutical dollars to influence medical school accreditation policies. As Pulitzer Prize winning medical historian Paul Starr wrote, “Even though no legislative body ever set up... the AMA Council on Medical Education, their decisions came to have the force of law.”

Other historians have called Simmons and Fishbein “medical Mussolinis” for the heavy-handed methods they used to establish the AMA.<sup>15</sup>

In 1924, Simmons

was forced to resign due to scandals. In 1937, his successor, Fishbein, and the AMA as a whole were charged and convicted of anti-trust activities and conspiracy.<sup>16</sup>

But the damage had already been done.

Homeopathy was just about eradicated in the U.S.

Things are changing now. American homeopathy is starting to see a resurgence, fueled by its strong foothold in European medical care. And even its former most-determined enemies, members of the AMA, are changing their perspective.

Here’s what the AMA published in its own journal (*JAMA*) in 2006:

“Homeopathy as a medical system was taken seriously indeed by a great many thoughtful physicians (and medical policy makers) throughout the United States... 19th-century homeopaths pioneered systematic drug-testing research.”

But even with the changing tides, you can’t afford to wait for conventional medicine to change. Keep reading to find out what you can do to access this alternative medicine.

today as healing drugs.

So he started to dilute his remedies repeatedly, to infinitesimal amounts.

In fact, homeopathic remedies are so diluted that, according to physics, you can no longer find a single molecule of the substance in the dilution anymore.

### **As Safe as a Placebo...**

#### **But with More Than Twice the Power**

Because there's nothing left in the pills beside sugar and water, critics charge that homeopathy works only because of the placebo effect, the power of belief.

However, none of this holds water when you consider the 89 placebo-controlled studies that show homeopathy to be at least 2½ times more effective than the placebo.

And certainly, unless we can communicate with animals, it doesn't explain how well homeopathy has worked for veterinarians. Like in this other study...

“While the conventional dose of antibiotics and drugs reduced the risk for respiratory sickness by 11%, the homeopathic treatments reduced the risk by 40%. Almost 4 times the effectiveness!”

#### **Are Pigs Smarter Than We Thought?**

One German study used 1,440 pigs from an intensive livestock operation. Typically, between 24% and 69% of the animals on this kind of farm were hit with respiratory problems.

The results of this study were startling. While the conventional dose of antibiotics and drugs reduced the risk for respiratory sickness by 11%, **the homeopathic treatments reduced the risk by 40%. Almost 4 times the effectiveness!**

Now, pigs are pretty smart animals. *But I'm hard-pressed to believe that they knew their food had been dosed with homeopathic medicine. Or that their belief led to this astounding difference in results.*

This and many other studies on animals show that it's not belief that makes homeopathy work.

### **How a Pharmaceutical Research Scientist Proved Homeopathy's Ultra-Dilutions Work**

So if there are no molecules of the substance in the remedies used in homeopathy—how in the world does it work?

Funny enough, some of the best evidence that homeopathy's ultra-dilutions work comes from a world-famous pharmaceutical research scientist, Jacques Benveniste, MD, who wanted to see how ultra-dilutions could help with pharmaceutical drugs.

Benveniste diluted an antibody 10<sup>120</sup> times. That's 10 with 120 zeros after it.

Yet even at this dilution, the antibody affected human cells in the same way that it would at higher potencies.

*But here's what's really startling.* When they tested for the antibody in the dilution, they couldn't find it. Just as science had predicted, there were no molecules of the original antibody in the solution.

Benveniste wasn't about to allow any room for error. So he made sure this experiment was conducted at six different laboratories in four different countries.

Other scientists created similar experiments and saw the same mind-bending results.

What Benveniste has done is simply what Galileo did centuries before. He broke through common assumptions about how the world works to demonstrate that there is much more that we don't understand.

Further research at the California Institute

## They've Got Some Nerve Charging This Much!

While the consultation costs for a homeopathic doctor are similar to those of a conventional doctor, the treatment costs are nothing alike.

Additionally, after the right homeopathic remedy is found, it often takes as little as one dose to initiate a cure. Many patients need no additional medication for months, years... or ever after this initial treatment.

Health Problem	Conventional Treatment	Cost	Homeopathic Treatment	Cost
Headache	Tylenol	\$17.99	Aconite*	\$7.59/160 pellets ✓
Constipation	Dulcolax	\$31.79	Capsicum*	\$7.59/160 pellets ✓
Migraines	Axert—1 box/12 tabs	\$308.80	Cyclamen eurpoeum*	\$7.59/160 pellets ✓
Back Pain/Sciatica	Generic Baclofen	\$27-60/30-day supply	Gnaphalium*	\$7.59/160 pellets ✓
Allergies	Zyrtec	\$26.99	Allium cepa*	\$6.99/80 pellets ✓
HIV	Combination anti-retroviral drugs	\$10,000 –15,000/patient/year	Nux vomica*	\$6.99/80 pellets ✓
Breast Cancer	Tamoxifen Citrate	\$123.50/60 tablets	Carcinosin*	\$15.99/ 400 pellets ✓

\*Homeopathic prescriptions are based on very precise diagnosis. While these remedies have shown significant results for many patients and in trials, they may not be the appropriate one for your condition. However, the price range is consistent with most homeopathic treatments.

of Technology has shown that, when these ultradilutions are prepared in the particular method homeopathy uses, they create unique “ice crystals” in water that don’t melt at room temperature.

And, according to researchers at UCLA, these special crystals create electromagnetic signals that have been shown to boost the immune system 100%.

Again, in neither of these experiments did the dilution contain molecules of the original substance being studied.

These new understandings that tie into quantum physics hint at why homeopathy works. It’s not some hocus-pocus. Instead, it’s an advanced form of medicine ahead of its time.

But there are some reasons why homeopathy doesn’t work that are critical to pay attention to...

### Why Homeopathy Doesn’t Work Sometimes... and What You Can Do About This

While people who have used homeopathy successfully cannot conceive of returning to the old way of doing medicine, there are indeed folks who haven’t experienced the same kind of results.

And this is where many of homeopathy’s detractors get their fuel.

But ironically, the reason it doesn’t work is found precisely in its advantage over conventional medicine.

(It’s also why conventional doctors don’t want to have anything to do with it.)

See, homeopathy is a very precise science.

For a remedy to work, it has to match your symptoms exactly.

So, for example, if you go see a homeopathic

*(continued)*

This booklet should not be considered a substitute for medical care from your doctor or other healthcare provider. On any matter relating to your health or well-being, please check with an appropriate health professional. The information contained herein, while believed to be correct, is not guaranteed to be accurate or complete. The opinions herein are exactly that, they are opinions of the author.

doctor for a headache, he's not going to spend 5 minutes with you and prescribe a basic painkiller.

No, he'll spend over an hour talking to you to find out exactly what you're experiencing.

He'll ask you questions like: Where exactly do you feel the pain? On the left side of your head? The right? Does your neck ache? Your eyes? Is it a throbbing pain, waves of pain, or occasional stabs of pain? Does it get worse in the morning or at night? Do you crave certain foods? Does cool weather make it worse or better?

He'll use your answers to identify **the exact remedy that will work for your unique experience** of having a headache. Because, in homeopathy, there are more than a dozen distinct remedies for headaches.

The homeopathic approach requires a doctor

## "I Can Always Find Something That Helps"

"I had been working with a homeopathic group for a few years before subscribing. *Homeopathic Healing Miracles* is a very good journal, it has very good references.

I like it because it always comes out with new remedies for different illnesses, different symptoms. So I can always find something more applicable.

There are a lot of skeptics out there but there are a lot of people who have used homeopathy and gotten very good results in it so I believe in it. I don't use very many pharmaceutical drugs. A lot of them are dangerous. However, I don't speak to my doctor about this because most doctors are skeptical about homeopathy.

I hope to renew my subscription again when the time comes."

--Al Green, 93,  
former chemistry teacher, Florida

who is committed to working with you and finding the exact match for what ails you. Not tossing you into a box labeled with an illness.

This takes time and attention.

Most conventional doctors couldn't be bothered spending an hour with each patient.

**Most conventional doctors like having an easy, quick diagnosis. A one-size-fits-all approach.** "Take two aspirins and call me in the morning."

In our assembly-line form of practicing medicine, homeopathy doesn't fit very well. And that's precisely why doctors in the AMA initially fought so hard against homeopathy.

It isn't an easy money maker.

It takes discipline, research, keen observation and concern for the patient. It takes time.

## The Key to Making Homeopathy Work for You

Because of this challenge in finding the right remedy, doctors in homeopathy welcome informed consumers as partners in finding the best treatment.

The more information you can bring to the table, the better.

Similarly, if you're using it on your own at home for minor health problems—which plenty of people do because it's so safe, cheap and effective—you need to know enough to pinpoint the right treatment.

**So the best way to make sure you find the right remedy is to be informed.**

*In fact, perhaps this is why it's not for everyone.* Because most people aren't willing to do what it takes to regain control over their health.

*But if you are someone who is determined to take charge of your health* (which I suspect you are; that's why I sent you this report), you're going to love what homeopathy offers.

And that's why you'll love what I've put together for you.

## Your Key to Mastering Homeopathy and Making It Work for You

See, you don't have to worry about this one catch to homeopathy's promise—finding the exact treatment match.

We've lined up a special set of gifts for you that make this issue negligible.

In addition to this first report you're holding right now, I'd like to send you three more fantastic resources that will help you tap into homeopathy's promise confidently and quickly.

I'd like to send you 3 more FREE reports as gifts.

► **FREE GIFT #1: *The End of Deadly Epidemics: Protect Yourself Even When Doctors Can't Help You*** (\$9.95 value)

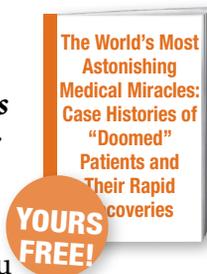

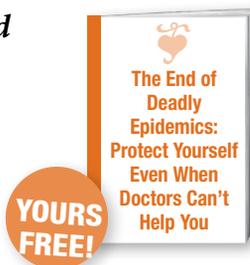

These are strange and unnerving times we live in—terrorism, environmental disasters, quickly mutating viruses, drug-resistant bacteria and more. However, homeopathy has an outstanding history of successfully treating emerging epidemics like the 1918 flu, and outbreaks of typhoid, cholera, meningitis, avian flu and more.

Find out how you can protect your family from unexpected threats with homeopathy with this special report.

► **FREE GIFT #2: *The World's Most Astonishing Medical Miracles: Case Histories of "Doomed" Patients and Their Rapid Recoveries*** (\$9.95 value)

*This report will inspire you and give you hope.* It will help you better understand the amazing possibilities for real healing that homeopathy offers.

But even more importantly, it will help you share the promise of homeopathy with others you care about. You can use this report to convince your family, friends—even your doctor—that homeopathy should not be dismissed.

► **FREE GIFT #3: *Find a Certified Homeopathic Healer Fast: And What to Ask When You Make Contact*** (\$9.95 value)

With no systematic form of licensing and very few qualified homeopathic physicians in this country (unlike Europe), it's hard to find someone who can help you.

*This report will make sure that you can find a reliable practitioner fast when you need one.*

These three reports build on what you've discovered here to give you a solid foundation in understanding what homeopathy offers and making good use of it.

And while together these reports would cost you almost \$30, they're yours free when you sign up to get this fourth invaluable source of information on homeopathy...

## Your Fourth Indispensable Tool in Gaining Access to Homeopathy

Like any field of medicine or science, homeopathy is a growing body of knowledge. Every year, practitioners are discovering new applications for age-old remedies.

For example, right now in collaboration with the MD Anderson Cancer Research Center, researchers are seeing indications that an old remedy for migraines may be one of the most potent cures for breast cancer.

When you subscribe to *Homeopathic Healing Miracles*, you will be able to keep up with the latest in homeopathic research and applications...

...and get thorough explanations of tried-and-true remedies that have stood the test of time.

## So Put an End to the Deception—Join the Growing Ranks of People Who Are Tapping Into This Miracle-Making Medicine

I could go on for pages about what you'll find

(continued)

in these 3 invaluable reports and every month's issue of *Homeopathic Healing Miracles*. But instead, I'd rather put them in your hands so you can look at them yourself.

So I urge you to **mail in your subscription right now**. Before this gets lost in the pile on your counter or desk. Just fill out the form on the back or call 1-866-744-3579 to get your FREE reports and start your subscription right away.

**The next time you face a serious—or even minor—health problem, you'll kick yourself if you don't have this information on hand.**

Because with these reports and *Homeopathic Healing Miracles* monthly newsletter, you'll...

- Know the latest research on homeopathy and new applications for treatments that could make all the difference in your life;
- Find out exactly which symptoms correspond with which remedy. For example, have a cold? Choose from 10 different remedies to find the perfect match for you;
- Know when you can treat yourself at home. And when you should get the help of a professional homeopathic physician. And how to find one and make the best use of your consultation;
- Find out where you can get the remedies you need. And exactly what form to take them in; and
- Get critical information that could save your family's life in the case of a terrorist attack or an epidemic.

And while the focus is on homeopathy, *Homeopathic Healing Miracles* also examines other natural, non-invasive forms of health care that complement homeopathy and help it work even better.

### **Watch Your Doctor's Jaw Drop...**

Just imagine how it will feel to go to your next doctor's appointment with your regular physician and watch his jaw drop as he tries to figure out...

- ▶ Where that **knee pain** you were suffering

with went. And that gnarled finger that wouldn't straighten properly? **Cured!**

- ▶ What you did with those **headaches** that kept you from getting out more. You know, the ones that took you to the emergency room for yet another dose of painkillers. **Cured!**
- ▶ What happened to that **high blood pressure**—those numbers that always made your doctor shake his head and wag his finger at you. **Cured!**
- ▶ Or those **senior moments** that made you feel foolish and self-conscious when you spoke, worried that you were repeating yourself. **Cured!**

When you get *Homeopathic Healing Miracles* in the mail each month, it's as if you're welcoming an attentive healing partner into your home.

In and of itself, *Homeopathic Healing Miracles* is an invaluable resource. Even natural health professionals, like Dr. Alwyn Wong, see it as a valuable resource:

**"As a natural health professional, I know how important it is to make use of all the different healing approaches out there. However, it's hard to keep up with it all; there is only so much you can be an expert in. For that reason, a newsletter like *Homeopathic Healing Miracles* is a welcomed resource for not only my patients/clients, but also for me as a professional, keeping me abreast of an effective form of medicine that I'm less familiar with, expanding the recommendations I can make to my patients."**

Ordinarily we charge \$99 for a year's subscription. And, as you can see by the chart to the right, this is easily made up for by just how much you'd pay for over-the-counter remedies for a year.

But right now, if you order immediately, you can save even more. Take advantage of this special offer. We're only making it available to people we've sent this first report to.

We're reducing that initial subscription price

from \$99 to \$29.95 for a total savings of \$69.05!

This is an incredible bargain. Together, these three reports and a year's subscription are valued at \$128.85. But if you order today, you'll get them all for a whopping \$29.95. That's a savings of \$98.90!

Think about it, this special subscription price is only about the cost of one box of the allergy medicine "Zyrtec" or a box of laxatives (check the chart on page 9). But in these reports and monthly newsletters, you'll find the information to free you from allergies and constipation for good!

And your satisfaction is guaranteed.

### **Our Iron-Clad 100% Satisfaction Guarantee**

Our goal is to give you information that can make a difference in your life. We've worked hard to give you the best information available. But if you're not 100% satisfied with this special monthly health advisory, just cancel your subscription and we'll refund you for all unmailed issues of *Homeopathic Healing Miracles*. You may cancel for any reason, no questions asked.

All the FREE reports are yours to keep no matter what you decide.

So there's no reason to wait on this. If you've been praying for a miraculous recovery. Or if you're simply tired of medications that make you feel worse than you did before you took them...

Don't delay, call us now at 1-866-744-3579 or fill in the attached order form and mail it in to get your free reports and subscription.

Join this growing movement of people who have broken through the misinformation of the American Medical Association to find real cures, real healing and real health. With this one call, you can change your world.

I hope you join us. Respectfully,

Helen Martyre  
Publisher, *Homeopathic Healing Miracles*

## **Found Information for Her Daughter with Breast Cancer**

"I was looking for information on cancer. I've tried to give the information to my daughter who has breast cancer. I try to make them understand that the doctors don't know everything and they just want to give you that crazy medicine. I truly believe in [homeopathy] myself. I do not like prescription medicines since I think they make you sicker. [*Homeopathic Healing Miracles*] explains it pretty well."

--Sylvia Damron, 84, housewife  
Cottonwood, California

P.S. There's one more gift I'd like to add on if you place your order within 10 days—*perhaps one of the most important reports of all.*

**Homeopathy really shines when it comes to emergency situations.** This is why the Queen of England won't travel without her homeopathic kit and physician and it's why star athletes like David Beckham and Martina Navratilova keep homeopathy close at hand.

We've put together this extra-special report: ***Don't Stay Home Without It: The Homeopathic First-Aid Kit Every Family Should Own*** (\$9.95 value); yours FREE when you order within the next 10 days.

Make sure your family has this critical tool. Again, this all comes with a 100%-satisfaction guarantee, so you have your peace of mind. And even if you cancel, you get to keep all 4 reports as a special gift from me. Call today: 1-866-744-3579.

(continued)

# Your Satisfaction Is GUARANTEED

When I hear how Mary Weisner's father beat back Alzheimer's... Or Will's story about finding relief from Crohn's disease... Or Max's story of shattering the confines of autism... Or any of the thousands of case studies of successful healing I've come across in researching this...

And then see the wall of silence in the medical establishment, I know something is seriously wrong with our approach to health care.

You deserve to have the full story. And you're not getting it.

That's why I'm so determined to get this information to you and every other person who can put it to good use. Every issue of *Homeopathic Healing* is created to help you get the most out of this safe, effective and inexpensive form of healing.

**However, the ultimate test of how useful this newsletter is... you.**

If for any reason you are dissatisfied with your subscription, you can cancel it and get a refund for all un-mailed issues.

- ▶ This guarantee is good for the whole year of your subscription. You can call us at any time to cancel.
- ▶ And even if you cancel, you can still keep all four special bonus reports. Consider them my gift to you.

I know money's tight. I'm thinking twice about every purchase, myself... But if this report struck a nerve, *you owe it to yourself to find out more.*

**That's why we have this iron-clad guarantee.** So you won't have to miss this opportunity to access real healing—real cures—that can change your life. The last thing I want to have happen is for you to decide to pass this up because you're just not sure...

You can check it out for yourself on a trial basis. If it's not for you, you won't lose any money on it.

Simply return the order form at the back or give us a call. I look forward to having you join us.

Sincerely,

Helen Martyre

Publisher, *Homeopathic Healing Miracles*

## FREE Gift Certificate

# A Special Invitation for Savvy Health Consumers Tired of the Mainstream Medical Establishment's Shenanigans

Fill out the order form to the right and fax BOTH sides to 1-905-856-9416. Our fax machine is always on, 24 hours a day.

Lombardi Publishing Corporation is one of the world's largest newsletter publishers: Over one million customers in 141 countries and growing. Your first issue will be rushed out. By accepting this offer, for your convenience, you authorize us to renew your subscription annually at the regular annual rate in advance so there is no interruption in service—you can always cancel at any time (by mail, phone or e-mail) if you are not satisfied for a full, prorated refund of your subscription price. We pride ourselves on excellent customer service.

## The Mainstream Medical Establishment Has Tried to Keep This Under Wraps...

For over a century, they have tried to keep the American public in the dark about a unique form of medicine that's...

- **Gentle.** With no side effects, it's safe enough for pregnant women and babies.
- **Powerful.** The National Cancer Institute is now studying it for breast cancer. And it's been used successfully to treat HIV, Alzheimer's, autism and more.
- **Tested.** 89 double-blind, placebo-controlled studies show that it works.
- **Unbelievably Affordable.** Cancer cures cost on average \$14.99. Migraines ended for only \$6.99.

**Look inside** to find out exactly what they have been trying to hide from you... and how you can get access to it.
